Welsh Bridge Webs Help File  -
Three Pages (PairsScorer, Scorebridge, QuickPress)

---

Scoring uploads from Pairs Scorer and other programs by Jeff Smith.

1. Enter URL of Club Website for Web Upload on the Event Screen.
2. Score Session and save Data Files.
3. On the Display Results Screen click the 'Upload Web Address' Button.
4. You will now be directed to the Login Page of your website.
5. Login and navigate to Pages/Results/Edit and start a new line at the top of the page.
6. Select 'HTML' and in the upload/insert area click the 'Add Media' icon (asterisk).The Add Media screen will appear and you should select 'Browser Upload'. Now browse your computer for the latest results file and upload it.  (this will be the highest numbered ranks.htm file in the directory PairsScorer/Reports on your hard drive or latest file for a more complete analysis to upload)
7. In the 'Title Box' you can rename the file as you wish (i.e. Latest Results with Session Date), and when you have done this click 'File URL' and then 'Insert into Post'.
8. Now click the blue 'Update Page' button on the right hand side of the screen and after the page has been saved by the program you can view the page.
9. Any alterations can easily be made and saved again should this be necessary.  You are advised to disable Comments & Pings by removing the ticks from the appropriate boxes before updating the page.

## Uploads from ScoreBridge by <span>Stephen Bligh</span>

1. Login to your Site and navigate to Pages/Results/Edit and start a new line at the top of the page.
2. Select 'HTML' and in the upload/insert area click the 'Add Media' icon (asterisk).The Add Media screen will appear and you should select 'Browser Upload'. Now browse your computer for the latest results file and upload it.  (this will be the latest dated results file in the ScoreBridge/WebPages directory, and in the format 2010nov06.htm,    on your hard drive)
3. In the 'Title Box' you can rename the file as you wish (i.e. Latest Results with Session Date), and when you have done this click 'File URL' and then 'Insert into Post'.
4. Now click the blue 'Update Page' button on the right hand side of the screen and after the page has been saved by the program you can view the page.
5. Any alterations can easily be made and saved again should this be necessary.   You are advised to disable Comments & Pings by removing the ticks from the appropriate boxes before updating the page.

# QuickPress method.

Log in to your site and Admin Dashboard will appear.

Once only requirement

Using the admin sidebar navigate down to 'Settings' and select 'Reading'.

Check that your Posts Page is set to 'Results'

THEN

Right Hand side is QuickPress.

Cut and paste your Results here and 'Publish'

OR

Using the Upload/Insert tabs  (Add media asterick), add the scoring file from your computer
using the browser uploader to locate the file from Pairs Scorer or Scorebridge.  (File location
is described under Pairs Scorer or Scorebridge on pages 1 & 2).

You will still be able to edit or remove the files.

You are advised to disable Comments and Pings by removing the ticks from the appropriate boxes before

 publishing the post.
